December 17, 2020

As 2020 comes to a close, we have been asked numerous times how many deaths, in total, have we seen in 2020 and how does that compare to previous years. We had the data pulled from the Vital Records system. The top graph shows the total number of deaths by year since 2015. The 2020 number goes through December 14th. The bottom graph shows how many deaths from COVID this year, with December showing 38 as of the 16th. As of December 16th, Elkhart County has seen 282 COVID-19 related deaths.

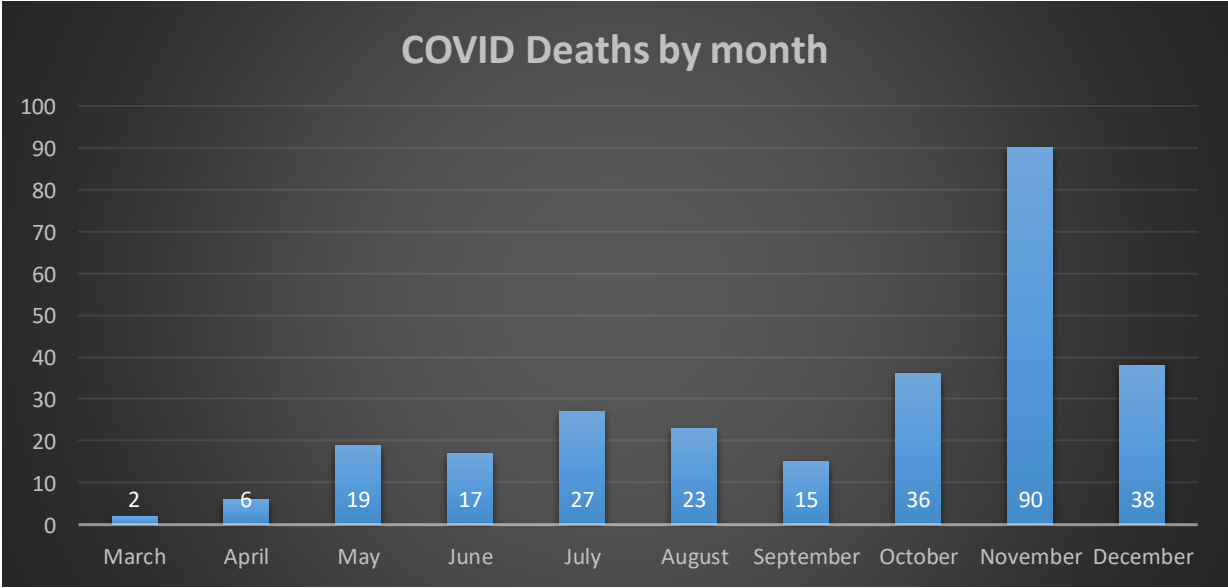

A medida que 2020 llega a su fin, nos han preguntado en numerosas ocasiones cuántas muertes, en total, hemos visto en 2020 y cómo se compara eso con años anteriores. Sacamos los datos del sistema de Vital Records. El gráfico superior muestra el número total de muertes por año desde 2015. El número de 2020 va hasta el 14 de Diciembre. El gráfico inferior muestra cuántas muertes por COVID este año, con Diciembre mostrando 38 hasta el 16. Hasta el 16 de diciembre, el Condado de Elkhart ha visto 282 muertes relacionadas con COVID-19.
