Test results from all labs are taking between 8 and 10 days due to the surge in other parts of the country. This does affect our positive results reported to the state. It appears that we are going down in our positive tests; however, this is probably due to the lack of results coming out of the laboratories. We hope this will be resolved soon.

Los resultados de las pruebas de todos los laboratorios se estan demorando entre 8 y 10 días debido al aumento en otras partes del país. Esto afecta nuestros resultados positivos reportados al Estado.
